

Restructuring Team Purpose Statement

We seek to remain God-centered and spirit-focused in our organization so that we may embody the love of Christ in the world.

The purpose of our restructuring effort is to improve our church governance so that:

- Church Leaders and congregants spend more time devoted to mission and ministry, and less time working on organization and administration;
- The decision-making processes are clear, transparent, simplified, and collaborative;
- Ministry teams are better integrated within the overall mission of the Church and not working as isolated groups.
- Fewer leadership positions require multi-year commitments.
- Congregants can actively participate in ministry teams with a flexible time commitment, using their gifts and talents, which reflect their personal call to serve God and the world.
