

## **YOUR CHURCH NEEDS YOU!**

- Are you willing to share your talents to help your church?
- Do you use online banking?
- Can you volunteer two hours each week?

We need someone to pay bills online, approve payroll and monitor the work of our volunteer bookkeeper who keeps the books and produces the monthly accounts. No accounting skills are needed – just a desire to serve your church, ensure careful stewardship of the church's money and a willingness to communicate with vendors and the governing board when necessary.

You'll be part of the Finance Team, working with the bookkeeper and members of the governing board responsible for finances and facilities. You'll help us live out our values and practice good stewardship while supporting our ministry to share the love of Christ.

No, this isn't the old church treasurer job. It's now lot different and a lot easier. You don't have to keep the books, you don't have to produce financial reports and most of the work can be done from home anytime you like. If you know roughly how much is in your bank account and you manage your expenses within your income, you have the financial skills we need.

Please talk to governing board member Suzanne Cimoichowski to find out more how you can help our church to thrive by sharing your time and talents in this way. We need you. Thank you!
